

Low Carbon Product Certificate

Low Carbon Product (LCP) Certification independently certifies that the material, from which this organisations' products are made, has been appropriately recycled to generate carbon savings .

Certificate Number: SCG LC-20022

Certification Date: 06/07/2023

This Certificate confirms that recycled building and construction aggregate, manufactured by:

J & M Murdoch and Son Ltd.

of **Crofthead Industrial Estate, Lochlibo Road, Neilston, Glasgow, Scotland, G78 3NE**, has been reviewed and evaluated by Sustainable Certifications Group, and is compliant with the requirements of the **Low Carbon Products (LCP) Certification Scheme**.

This LCP Certificate provides independent affirmation that the specified product has been manufactured from a low carbon material, certified as being 100% recycled post-consumer/post-industrial, and that the manufacturing process uses robust management systems and procedures to ensure continuity of quality.

The LCP Logo above (and this Certificate number) are authorised to be used by the Certificate holder to demonstrate compliance with this scheme.

This license is due for re-issue on 06/07/2026 and will remain current subject to the company maintaining its product to the requirements of the LCP certification scheme. This will be monitored regularly by SCG.

Signed:

Tim Baldwin
(on behalf of Sustainable Certifications Group)
